hubspot

RANJEET

Full Stack Web Developer

PROFESSIONAL SUMMARY

Full Stack Web Developer with 1+ year of experience, specializing in MERN, MySQL, and Nest.js. Skilled in building scalable web apps, integrating systems, and delivering high-quality code with strong problem-solving and teamwork

WORK EXPERIENCE

Spontom & Co.

Full Stack Web Developer

February 2024-present

Job responsibilities:

- Collaborated with product managers and designers to deliver scalable web applications using the MERN stack.
- Developed and maintained efficient server-side APIs with Node.js and Express.js.
- Implemented and optimized React.js frontend components for enhanced user experience.
- Designed and queried MongoDB databases to ensure seamless data integration.

PROJECTS

1. Softmap.AI (document maker)

Wasp | React | OpenAI | Postgresql | Prisma | Responsive Web Design

- Collaborated with product managers to gather requirements and translated them into functional features for a document-making SaaS application.
- Designed and developed server-side APIs using Wasp framework and integrated with OpenAI to generate documents.
- Optimized database models and queries with PostgreSQL and Prisma, ensuring efficient data handling and storage.
- Ensured smooth integration between frontend and backend components, enhancing the reliability of document creation.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring application stability and reliability.

2. Aielbook (Social media)

React | Node.js | Express.js | MongoDB | Responsive Web Design

- Designed and developed efficient server-side APIs using Node.js and Express.js for social media functionalities.
- Implemented scalable and responsive frontend components using React.js, ensuring a seamless user experience across devices.
- Created and optimized MongoDB database models and queries for user interactions such as login, follow, comment, like, and delete account.
- Ensured seamless integration between frontend and backend components, facilitating smooth user interactions.
- Conducted thorough testing and debugging to ensure the reliability and stability of the application.
